CTE CRUSH COMMUNITY ADVISORY EVENT HELD ON MARCH 7

The CTE Crush Community Advisory event took place in the newly opened Applied Technology (AC3) building, bringing together educators, industry professionals, and community members to discuss the future of Career and Technical Education (CTE). Each individual CTE discipline hosted its own specialized meeting, allowing for in-depth discussions and valuable feedback on the programs and initiatives. Following the meetings, attendees gathered in our beautiful AC3 lobby for a lively networking event, providing a great opportunity for collaboration and the exchange of ideas. Attendees also had the opportunity to support the Crush CTE Scholarship which aims to offer financial support to students pursuing a CTE discipline. CTE programs often involve extra expenses, such as uniforms, tools/instruments, travel costs for fieldwork, and certification fees, which are typically not required in other fields of study. The event showcased the commitment to advancing CTE and fostering stronger connections between education and industry. A sincere thank you to Erin Kent, Instructional Administrative Assistant, and Dr. Laura Hill, Dean of Instruction-Natural & Health Sciences, for their efforts in planning and organizing such an amazing event.
